

ACCFIN SKY

We Launch IT3-T and Trust Tax Returns

SKY TRUST TAX RETURNS

Navigating the complexities of tax returns, especially with the recent introduction of the **IT3-T distributions** upload for Trusts, can be a daunting task. The requirement for Trusts to upload their Distributions commencing the 1st of March adds another layer of complexity to an already intricate process. We understand that the preparation of tax returns often becomes a stop-and-start affair, marred by the frustration of missing crucial pieces of information such as ID numbers, addresses, and more.

PRACTICE FAST

Recognizing these challenges, the Sky Tax Team is excited to announce a groundbreaking solution designed to revolutionize the way you manage trust tax returns – the release of our **Verify Algorithm** which is part of the IT3-T process. This innovative tool is specifically tailored to address the pain points of Tax Practitioners and Trust Administrators by swiftly identifying any missing data necessary for the tax return process.

VERIFICATION ALGORITHM

BUSINESS INNOVATION

Here's how the Sky Trust IT3-T and Administration process benefits your firm:

- **Instant Identification:** Our algorithm scans your data and highlights missing information in seconds, electronically or by report, eliminating the need for time-consuming manual checks.
- **Streamlined Process:** By ensuring all necessary data is complete beforehand, you can proceed with filing the IT3-T smoothly, without the usual interruptions.
- **ITR12 Trusts:** When the financial data comes in the filing will be automatically processed.
- **Peace of Mind:** Rest assured knowing that your IT3-T and ITR12 Trusts preparation is compliant and thorough, with every piece of required data accounted for.

BUSINESS AND CONCEPT

Accfin Software is a company that builds digital systems for accounting practices that allows their clients to be compliant with all the regulators.
